ANTI - ACCESS USB PORT LOCK

The simple and effective tool for blocking access to a computers USB port With this neat little device, system administrators can physically prevent users from connecting Pen Drives, MP3 Players and other USB Mass Storage Devices to their computers to copy data, introduce viruses etc. **PUTS YOU IN CONTROL OF USB PORT ACCESS.**

The USB Port Lock is made up of a combined 'key' and 'lock' assembly which plugs into the USB port. To use, simply plug the 'KEYLock' into the port and release the latch - the lock remains in place! Plug the key back into the lock to remove. Easy takes seconds.

- Physically blocks access to a USB port
- Quick and easy to use
- Consists of 4 locks and 1 key
- 5 different colour code versions available
- : **Pink, Green, Blue, Orange, White**
- **Each key only works with a lock of the same colour**
- **Additional locks available in packs of 10 (without key)**
